July 15, 2020

To whom it may concern,

Later this summer, Nipissing Forest Resource Management Inc. will be applying herbicides to selected Crown land forested areas. The herbicide will be applied from the air using helicopters. This project is part of the Crown land forest management program and is necessary to ensure the successful regeneration of harvested and naturally depleted areas on the Nipissing Forest. The herbicide is applied to temporarily slow the growth of broad-leaf vegetation and give a growing advantage to conifer seedlings.

Additional information about the aerial herbicide projects is provided in the attached notice of "Inspection of Approved Aerial Herbicide Projects."

All future Nipissing Forest notices can be sent electronically to clients who request that format.

If you would like notices sent to you by electronic mail going forward, please send an email from your preferred email address along with your name/business name and current mailing address to [Yanish.Bhoolaton@ontario.ca](mailto:Yanish.Bhoolaton@ontario.ca). In the subject line, please include "Nipissing Forest notices".

If you need more information or would like to arrange a remote meeting to discuss the aerial herbicide projects, please contact Mr. Andy Straughan or myself as indicated in the notice.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Baker".

Robert Baker, R.P.F.

# INSPECTION

## Inspection of Approved Aerial Herbicide Project Nipissing Forest

The Ontario Ministry of Natural Resources and Forestry (MNR) invites you to inspect the MNR-approved aerial herbicide projects. As part of our ongoing efforts to regenerate and protect Ontario's forests, selected stands on the **Nipissing Forest** (see map) will be sprayed with herbicide to control competing vegetation, starting on or about: **August 15, 2020**.

The approved project description and project plan for the aerial herbicide project are available electronically for public inspection on the Ontario government website at [www.ontario.ca/forestplans](http://www.ontario.ca/forestplans) beginning **April 1, 2020** until **March 31, 2021** when the Annual Work Schedule expires.

Interested and affected persons and organizations can arrange a remote meeting with MNR staff to discuss the aerial herbicide project. For more information, please contact:

# INSPECTION

## Inspection d'un Projet De Vaporisation Aérienne d'herbicide Approuvé - Forêt Nipissing

Le ministère des Richesses naturelles et des Forêts (MRNF) de l'Ontario vous invite à inspecter un ou plusieurs projets de vaporisation aérienne d'herbicide approuvés par le MRNF. Dans le cadre des efforts que nous déployons continuellement en vue de régénérer et de protéger les forêts de l'Ontario, certains peuplements de la forêt Nipissing (voir la carte) recevront de l'herbicide dans le but de contrôler les espèces végétales concurrentes. La vaporisation commencera dans les environs du **15 août 2020**.

Le grand public aura la possibilité d'inspecter la description du projet approuvé et le plan du projet de vaporisation aérienne d'herbicide sur le site Web du gouvernement de l'Ontario à l'adresse [www.ontario.ca/plansforestiers](http://www.ontario.ca/plansforestiers) à compter du **1<sup>er</sup> avril 2020** et jusqu'au **31 mars 2021**, à l'expiration du calendrier de travail annuel.

Les personnes et les organismes intéressés et touchés peuvent organiser une rencontre à distance avec l'équipe du MRNF afin de discuter du projet de vaporisation aérienne d'herbicide. Pour en savoir plus, veuillez communiquer avec :
