**TO:** The Chairman and Members  
of the Board of Directors,  
North Bay-Mattawa Conservation Authority

**ORIGIN:** Valerie Murphy, Regulations Officer

**DATE:** October 21, 2020

**SUBJECT:** Report On Development, Interference with Wetlands, and Alterations to  
Shorelines and Watercourses Permits for board approval

**Background:**

Section 28 of the *Conservation Authorities Act*, and subsequently Ontario Regulation 97/04 empowers each Conservation Authority to establish their own regulation to prevent the loss of life and property due to flooding and erosion, and to conserve and enhance natural resources. On May 4, 2006 the North Bay-Mattawa Conservation Authority (NBMCA) received its regulation entitled the Development, Interference with Wetlands, and Alterations to Shorelines and Watercourse Regulation (Ontario Regulation 177/06). This regulation will continue to be used as the tool by which the NBMCA manages issues related to development in natural hazard areas including areas with floodplains, wetlands and steep slopes. Within this regulation, a permit may be given by an Authority for development applications within the Authority's jurisdiction for:

*28(1)(b) prohibiting, regulating or requiring permission of the authority for straightening, changing, diverting or interfering in any way with the existing channel of a river, creek, stream or watercourse, or for changing or interfering in any way with a wetland;*

*28(1)(c) prohibiting, regulating or requiring the permission of the authority for development if, in the opinion of the authority, the control of flooding, erosion, dynamic beaches or pollution or the conservation of land may be affected by the development.*(Conservation Authorities Act, R.S.O. 1990, Chapter C.27).

On February 8, 2013, the amended Ontario Regulation 177/06 came into effect. These amendments were approved by the NBMCA Board of Directors on December 19, 2012. One of the amendments that was included, and which was approved by the NBMCA Board of Directors, included the delegation of approvals of permit applications to the following designated employees:

- Chief Administrative Officer, Secretary-Treasurer
- Director, Planning & Development

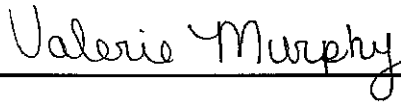

As such, this Board Report is being presented to the NBMCA Board of Directors for information purposes.

**Analysis:**

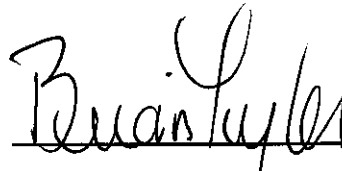

17 new permits and 2 permit amendments have been issued by the Conservation Authority in 2020 since the previously approved minutes as per the policies, procedures and guidelines of the NBMCA under Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation. A table summarizing the details of these permits is attached to this report.

Of the newly issued permits, four were for the placement of fill, three were issued for the construction on new single family dwellings, two were issued for the completion of landscaping and one permit was issued for each of the following activities: repair of a foundation, construction of an accessory structure, the reconstruction of a roadway, the construction of an addition to an existing dwelling, shoreline erosion protection, reconstruction of a playground, construction of a new municipal building and the relocation of existing infrastructure.

Two permit amendments were issued, one for the installation of a culvert and one for the installation of new sewer lines in a private campground.

of the Board of Directors,  
North Bay-Mattawa Conservation Authority

**ORIGIN:** Helen Cunningham, Manager, Financial Services and Human  
Resources

**DATE:** October 28, 2020

**SUBJECT:** Budget Update

**Background:**

Staff are monitoring the 2020 budget very carefully to keep the Board Members up to-date of any potential impact of COVID-19. As Board Members are aware, the North Bay-Mattawa Conservation Authority's (NBMCA) office is closed to the public, but is still carrying on business by way of telephone, email and regular mail. All staff are working from home but coming in periodically, to ensure that services are still being performed.

As the Board Members were informed at the March meeting, that a careful watch of the budget is warranted, this is an update as revenue and expenses by program as of September 30<sup>th</sup>, 2020.

**Analysis:**

At the end of September the overall total revenues are up in comparison to September 2019 the MNRF transfer payment agreement has been signed and a receivable has been set up for the payment. The revenue increase is mostly attributed to the fees collected in the Septic OBC program which are holding at approx. 11% above last year. The overall expenses are down approximately 17% as in comparison to last year. Expenditures are down because of a hold on capital initiatives pending the outcome of the COVID-19 emergency. Staff have been tracking COVID-19 related expenditures and as of September 30<sup>th</sup> NBMCA has incurred \$20,500.00. Staff have applied to grants to help reimburse some of these costs.

Watershed Planning fees are down by approx. 50% despite the fact that development is up this year. Planning applications are starting to pick up as of October.

The Interpretive Centre expenses are higher than anticipated due partly to extra expenditures because of Covid, and the building's HVAC system has been requiring costly repairs.

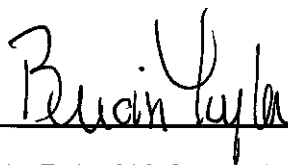

Amortizations of historically accumulated assets are expensed quarterly within the Administration Account (31-00). This quarter saw \$271,583.36 of expense that is not part of the annual budget because these expenses were funded prior to 2009.

**Recommendation:** The Financial statements that have been issued are consistent with Resolution No. 18-03. Therefore, it is recommended that the Conservation Authority Board of Directors approve these statements (see attached).

**RECOMMENDED RESOLUTIONS:**

**THAT** the Income Statement, Balance Sheet and Budget Status Report at September 30<sup>th</sup>, 2020 be approved and appended to the minutes of this meeting.

**TO:** The Chairman and Members  
of the Board of Directors,  
North Bay-Mattawa Conservation Authority

**ORIGIN:** CAO, Secretary Treasurer  
Manager, Finance and Human Resources

**DATE:** October 21, 2020

**SUBJECT:** Preliminary 2021 Budget Overview and  
Ten Year Capital Forecast

**Background:**

Each year once third quarter financial reporting is complete North Bay-Mattawa Conservation Area (NBMCA) staff concentrate on firming up the coming year's work program and the costs associated with implementation. This effort includes looking for program efficiencies and improvements, and evaluates for potential sources of revenue. The result has been a fairly solid estimate of the year over year change in budget expenses for the Board of Directors and the member municipalities. This past year and moving forward the COVID-19 pandemic has created a few more uncertainties on how budgets might be impact as we respond.

If approved by the Members this estimate guides staff in preparing the draft budget for the Executive Committee to review at the start of the year. Typically, after review and comment the Executive Committee will make a recommendation to the Board of Directors to consider at its February meeting.

The task of preparing the 2021 Budget will continue to be influenced by the loss of \$125,000.00 in provincial transfer payment from 2019. We anticipate this change in funding will remain in place in the coming years including 2021.

**Analysis:**

**2021 Operating Budget Projections**

In 2020, staff understood the fiscal challenges we faced at the local level. For this reason, amongst others, staff sought out options to accommodate the loss of \$125,000 in provincial transfer payment without affecting the municipal levy. The loss of these funds continues to be linked to the Conservation Authorities hazard program. Staff were successful in their efforts to minimize the levy increase within the rate of inflation. Staff's plan moving forward will remain the same as last year; to keep the levy as close to the rate of inflation.

More broadly, the Operating Budget provides funding support for administration and all ongoing core program and services for the organization. It is staff's expectation that the recommended 2021 operating levy will be \$461,348; representing a 1.5 % increase from the current year. This projection is based on the anticipated annual change in the Consumer Price Index (CPI) for Ontario ending in November.

If this projection is approved by the members staff will start to work on a detailed program and services operating budget for consideration as described previously.

Other factors that could affect the levy include but not limited to:

- Further changes to provincial transfer payments.
- Increases to insurance and employment benefit expenses.
- The level of economic activity in the watershed that in turn generates fees for the CA.

Further to this, the Board of Directors should note there are activities and associated expenses from source protection plan implementation that will need to be borne locally. Discussions with effected municipalities will occur in the coming months to scope out how this will happen. These costs, if any, have not been calculated as part of the levy.

**Capital and Special Projects Budget Projections**

The Capital and Special Projects Budget provides funding support to complete capital infrastructure, comprehensive planning and technical products core to the NBMCA’s mandate. This budget has been guided annually by a ten year capital forecast. Both this year’s projections and the ten year forecast form part of this report.

i) The 2021 Projection

The 2020 to 2029 Capital Forecast was approved by the Board of Directors as part of the 2020 Budget this past February. At the time the levies for 2020 were \$1,106,728.00. The current 2021 forecast has been lowered to \$1,061,786.00. The following provides high level descriptions of the planned capital initiatives for 2021:

**Conservation Authority Lands and Trails:**

The Board of Directors has established through its budgeting process an ongoing capital replacement and upkeep program to keep facilities at NBMCA conservation area and trails to a safe and functional standard for visitors to enjoy. This initiative has been reviewed and reconfirmed through each corporate strategic planning process and remains critical to continue to meet capital asset challenges. Buildings including the Interpretive Centre, bridges, and trails remain the largest challenge.

In 2021 the capital program projections include:

Priority	Detail	Project Cost
#1	CA/Trails Infrastructure	\$115,700
#2	CA/Trails Repair & Rehab	\$122,200
#3	Forest Management	\$9,730
#4	Equipment Purchase	\$10,275
#5	Fixed Ski Hill Assets	\$65,000
#6	Land Acquisition	\$14,500

Total Levy Cost: \$337,405

**DATE:** October 20, 2020

**Background:**

The corona virus disease (COVID-19) was declared a pandemic by the World Health Organization on March 11, 2020. On March 17, 2020 the Province of Ontario declares a state of emergency in response to the worsening conditions.

On March 26, 2020, the Minister of the Environment, Conservation and Parks issued a Direction to all Conservation Authorities ("CAs") recommending amendments to CA Administrative by-laws to allow for certain electronic processes during declared states of emergencies. The Minister has extended his declaration to allow CA's to make further minor amendments to their Administrative By-laws to allow for continued use of electronic meetings if circumstances warrant.

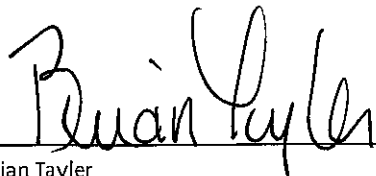

**Analysis:**

The revision being proposed can be found under Section C. Meeting Procedures, pages 11 through 15 of the attached Administrative By-law. The amendments are shaded in grey for the Members reference. The changes are being made to allow the Members to meet electronically without a provincially declared state on emergency. Members participating electronically will now counted toward establishing quorum and can actively participate in closed session of the Committee of the Whole. This was not the case when the Members approved amendments to the By-laws in April.

**Recommendation:**

To approve the changes to the Administrative By-Law as recommended in this report.

**RECOMMENDED RESOLUTION:** To be provided at the meeting.

The North Bay-Mattawa Conservation Authority demands a high level of integrity and ethical conduct from its General Membership. The Authority's reputation has relied upon the good judgement of individual Members. A written Code of Conduct helps to ensure that all Members share a common basis for acceptable conduct. Further, they enhance public confidence that Members operate from a base of integrity, justice and courtesy.

The Code of Conduct is a general standard. It augments the laws which govern the behaviour of Members, and it is not intended to replace personal ethics.

**TO:** The Chairman and Members  
of the Board of Directors,  
North Bay-Mattawa Conservation Authority

**ORIGIN:** Paula Scott, Director, Planning & Development/Deputy CAO

**DATE:** October 28, 2020

**SUBJECT:** North Bay-Mattawa Conservation Authority Hearings and Procedural Manual Update

**Background:**

NBMCA's *Hearings and Procedural Manual*, adopted by the Board of Directors on November 15, 2010, identifies the step-by-step process for conducting hearings required under Section 28 (12), (13), (14) of the *Conservation Authorities Act*. An update to this document is recommended based on the following changes:

- 1) Subsection 28(15) of the Conservation Authorities Act provides that a person who has been refused permission or who objects to conditions imposed on a permission may, within 30 days of receiving the reasons may appeal to the *Minister of Natural Resources and Forestry (MNRF)*. Further to the passage of the Building Better Communities and Conserving Watersheds Act, 2017 effective April 3, 2018 this appeal has been assigned to the *Mining and Lands Tribunal* through Order in Council 332/2018. The Mining and Lands Tribunal is now a part of the Environment and Land Tribunal Cluster (ELTO) of the Ministry of the Attorney General. Reference to MNRF has been removed. Appendix D "Notice of Decision – Model" has been revised to incorporate the proper contact information for the appeal.
- 2) The corona virus disease (COVID-19) was declared a pandemic by the World Health Organization on March 11, 2020. With the need for continued social distancing, conservation authorities require alternate means to provide hearings under Section 28 of the *Conservation Authorities Act*. The purpose of this second update is to incorporate the use of electronic hearings. This update to the hearing guidelines is complementary to the proposed update to the NBMCA's Administrative By-Laws to incorporate electronic Board meetings.

The revised document is attached for your review.

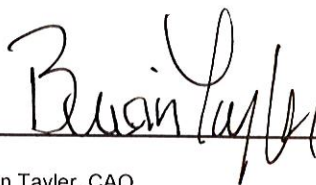

**RECOMMENDED RESOLUTION:**

That the Board of Director's approve of the proposed changes to *NBMCA's Hearings and Procedural Manual* to replace the reference to the Ministry of Natural Resources and Forestry with the Mining and Lands Tribunal and to allow for electronic hearings.

Director, Planning & Development/Deputy CAO

## 1.0 PURPOSE OF HEARING GUIDELINES

The purpose of the Hearing Guidelines is to reflect the changes to the 1998 *Conservation Authorities Act*. The Act requires that the applicant be party to a hearing by the North Bay-Mattawa Conservation Authority (NBMCA) Board of Directors or Executive Committee (the "Hearing Board"), for an application to be refused or approved with contentious conditions. Further, a permit may be refused if, in the opinion of the Authority, the proposed development adversely affects the control of flooding, *erosion, dynamic beaches, pollution or conservation of land*. The Hearing Board is empowered by law to make a decision, governed by the *Statutory Powers Procedures Act*. It is the purpose of the Hearing Board to evaluate the information presented at the hearing by both the Conservation Authority staff and the applicant and to decide whether the application will be approved with or without conditions, or refused.

These procedures have been prepared to provide a step-by-step process to conducting hearings required under Section 28 (12), (13), (14) of the *Conservation Authorities Act*. Similar to the 2005 Hearing Guidelines developed for Conservation Ontario, it is the intent that these procedures will promote the necessary consistency across the Province and ensure that hearings meet the legal requirements of the *Statutory Powers Procedures Act* without being unduly legalistic or intimidating to the participants.

## 2.0 PREHEARING PROCEDURES

### 2.1 APPREHENSION OF BIAS

In considering the application, the Hearing Board is acting as a decision-making tribunal and will act fairly. Under general principles of administrative law relating to the duty of fairness, the tribunal is obliged not only to avoid any bias but also to avoid the appearance or apprehension of bias. The following steps will be taken to avoid apprehension of bias where there is the possibility for it to arise.

- a) No staff member of the NBMCA taking part in the hearing should be involved, either through interaction with Hearing Board members, or intervention on behalf of the applicant or other interested parties with the matter, prior to the hearing. Otherwise, there is a danger of an apprehension of bias which could jeopardize the hearing.
- b) If material relating to the merits of an application that is the subject of a hearing is distributed to Hearing Board members before the hearing, the material shall be distributed to the applicant at the same time. The applicant may be afforded an opportunity to distribute similar pre-hearing material.  
**These materials can be distributed electronically.**

- c) In instances where the NBMCA requires a hearing to help it reach a determination as to whether to give permission with or without conditions or refuse a permit application, a final decision shall not be made until such time as a hearing is held. The applicant will be given an opportunity to attend the hearing before a decision is made; however, the applicant does not have to be present for a decision to be made.

## 2.2 APPLICATION

The right to a hearing is required where:

- a) Staff is recommending refusal of an application, or
- b) There is some indication that the NBMCA or Authority Board of Directors may not follow staff recommendations to approve a permit, or
- c) The applicant objects to the conditions of approval.

The Notice of Hearing shall be sent to the applicant within sufficient time to allow the applicant to prepare for the hearing pursuant to the *Statutory Powers Procedures Act*.

## 2.3 NOTICE OF HEARING

The Notice of Hearing shall be sent to the applicant within sufficient time to allow the applicant to prepare for the hearing. To ensure that reasonable notice is given, the NBMCA will contact the Applicant prior to sending the Notice of Hearing.

The Notice of Hearing will contain the following:

- a) Reference to the applicable legislation under which the hearing will be held (i.e., the *Conservation Authorities Act*).
- b) The time, place and the purpose of the hearing. **OR for Electronic Hearings: The time, purpose of the hearing, and details about the manner in which the hearing will be held.**

**Note: for electronic hearings the Notice must also contain a statement that the applicant should notify the Authority if they believe holding the hearing electronically is likely to cause them significant prejudice. The Authority shall assume the applicant has no objection to the electronic hearing if no such notification is received.**

- c) Particulars to identify the applicant, property and the nature of the application which are the subject of the hearing.

Note: if the applicant is not the homeowner but the prospective owner, the applicant must have written authorization from the registered landowner.

- d) The reasons for the proposed refusal or conditions of approval shall be specifically stated. This should contain sufficient detail to enable the applicant to understand the issues so he or she can be adequately prepared for the hearing.

It is sufficient to reference in the Notice of Hearing that the recommendation for refusal or conditions of approval is based on the reasons outlined in previous correspondence or a hearing report that will follow.

- e) A statement notifying the applicant that the hearing may proceed in the applicant's absence and that the applicant will not be entitled to any further notice of the proceedings.

Except in extreme circumstances, it is recommended that the hearing not proceed in the absence of the applicant.

- f) Reminder that the applicant is entitled to be represented at the hearing by counsel, if desired.

The Notice of Hearing shall be directed to the applicant and/or landowner by registered mail. An example *Notice of Hearing* can be found in Appendix A.

## **2.4 PRE-SUBMISSION OF REPORTS**

It is the practice of the NBMCA to submit reports to Hearing Board members in advance of the hearing.

The applicant shall be provided with all reports from staff that will be provided to the Hearing Board. The applicant shall be given two weeks to prepare and submit a report once the reasons for the staff recommendations have been received.

## **2.5 HEARING INFORMATION**

Prior to the hearing, the applicant shall be advised of the North Bay - Mattawa Conservation Authority's hearing procedures upon request.

### **3.0 THE HEARING**

#### **3.1 PUBLIC HEARING**

Pursuant to the *Statutory Powers Procedure Act*, hearings, including electronic hearings, are required to be held in public. For electronic hearings, public attendance should be synchronous with the hearing. The exception is in very rare cases where public interest in public hearings is outweighed by the fact that intimate financial, personal or other matters would be disclosed at hearings.

#### **3.2 HEARING PARTICIPANTS**

- a) The *Conservation Authorities Act* does not provide for third party status at the local hearing. While others may be advised of the local hearing, any information that they provide should be incorporated within the presentation of information by, or on behalf of, the applicant or Authority staff.
- b) While the hearings will be held in public and are also open to attendance by the press, the filming of the hearing or the taking of pictures will not be permitted during the hearing by any person or persons.

#### **3.3 ATTENDANCE OF HEARING BOARD MEMBERS**

In accordance with case law relating to the conduct of hearings, those members of the Hearing Board who will decide whether to grant or refuse the application must be present during the full course of the hearing. If it is necessary for a Hearing Board member to leave, the hearing should be adjourned and resumed when the member returns. If the hearing proceeds, even in the event of an adjournment, only those members who were present after the member departed can sit to the conclusion of the hearing.

#### **3.4 ADJOURNMENTS**

The Hearing Board may adjourn a hearing on its own motion or that of the applicant or Authority staff where it is satisfied that an adjournment is necessary for an adequate hearing to be held.

Any adjournments form part of the hearing record.

#### **3.5 ORDERS AND DIRECTIONS**

The Hearing Board is entitled to make orders or directions to maintain order and prevent the abuse of its hearing processes. A hearing procedures example can be found in Appendix B.

#### **3.6 INFORMATION PRESENTED AT HEARINGS**

- a) The *Statutory Powers Procedure Act* requires that a witness be informed of his right to object pursuant to the *Canada Evidence Act*.

- i) The *Canada Evidence Act* indicates that a witness shall be excused from answering questions on the basis that the answer may be incriminating.
  - ii) Answers provided during the hearing are not admissible against the witness in any criminal trial or proceeding.
  - iii) This information should be provided to the applicant as part of the Notice of Hearing.
- b) The hearing procedure, in general, will be informal without the evidence before the Hearing Board being given under oath or affirmation.
- c) The Hearing Board may authorize receiving a copy rather than the original document. However, the Hearing Board can request certified copies of the documents if required.
- d) Privileged information, such as solicitor/client correspondence, cannot be heard. Information that is not directly within the knowledge of the speaker (hearsay), if relevant to the issues of the hearing, can be heard.
- e) The Hearing Board may take into account matters of common knowledge such as geographic or historic facts, times measures, weights, etc or generally recognized scientific or technical facts, information or opinions within its specialized knowledge without hearing specific information to establish their truth.

### **3.7 CONDUCT OF HEARING**

#### **3.7.1 Record of Attending Hearing Board Members**

A record shall be made of the members of the Hearing Board.

#### **3.7.2 Opening Remarks**

The Chairperson shall convene the hearing with opening remarks which generally;

- a) Identify the applicant, the nature of the application, and the property location;
- b) Outline the hearing procedures; and
- c) Advise on requirements of the *Canada Evidence Act*.

An Opening Remarks model can be found in Appendix C. **In an electronic hearing, all the parties and the members of the Hearing Board must be able to clearly hear one another and any witnesses throughout the hearing.**

### 3.7.3 Presentation of Authority Staff Information

Staff of the NBMCA presents the reasons supporting the recommendation for the refusal or conditions of approval of the application.

- a) Any reports, documents or plans that form part of the presentation shall be properly indexed and received.
- b) Staff and/or legal counsel of the Authority should not submit new information at the hearing as the applicant will not have had time to review and provide a professional opinion to the Hearing Board.
- c) NBMCA staff's presentation may include technical witnesses, such as an engineer, ecologist, hydrogeologist etc.

Consideration should be given to the designation of one staff member or legal counsel who coordinates the presentation of information and who asks questions on behalf of NBMCA staff.

### 3.7.4 Presentation of Applicant Information

The applicant has the opportunity to present information at the conclusion of the NBMCA staff presentation.

- a) Any reports, documents or plans which form part of the submission should be properly indexed and received.
- b) The applicant shall present information as it applies to the permit application in question. For instance, does the requested activity affect the control of flooding, *erosion, dynamic beach, conservation of land or pollution?*
- c) The hearing does not address the merits of the activity or appropriateness of such a use in terms of planning.
- d) The applicant may be represented by legal counsel or agent, if desired.
- e) The applicant may present information to the Hearing Board and/or have invited advisors to present information to the Hearing Board.

- f) The applicant(s) presentation may include technical witnesses, such as an engineer, ecologist, hydrogeologist etc.
- g) The applicant should not submit new information at the hearing as the NBMCA staff will not have had time to review and provide a professional opinion to the Hearing Board.

### 3.7.5 Questions

Members of the Hearing Board may direct questions to each speaker as the information is being heard.

- a) The applicant and/or agent can make any comments or questions on the staff report.
- b) Pursuant to the *Statutory Powers Procedure Act*, the Hearing Board can limit questioning where it is satisfied that there has been full and fair disclosure of the facts presented. It should be note that the courts have been particularly sensitive to the issue of limiting questions and there is a tendency to allow limiting of questions only where it has clearly gone beyond reasonable or proper bounds.

### 3.7.6 Deliberation

After all of the information is presented, the Hearing Board will deliberate and make a decision on the application. A resolution advising of the Hearing Board's decision and the particulars of the decision will then be adopted.

The Hearing Board members shall not discuss the hearing with others prior to the decision of the Hearing Board being finalized. This is of particular relevance in the case of an adjournment occurring before a decision can be rendered.

## 4.0 DECISION

The applicant must receive written notice of the decision.

- a) The applicant shall be informed of the right to appeal the decision within 30 days upon receipt of the written decision to the **Mining and Lands Tribunal**.
- b) The Hearing Board shall itemize and record information of particular significance which led to their decision, thus providing the applicant with a clear understanding of why the application was refused or approved.

#### **4.1 Notice of Decision**

The decision notice should include the following information:

- a) The identification of the applicant, property and the nature of the application that was the subject of the hearing.
- b) The decision to refuse or approve the application. A copy of the Hearing Board resolution should be attached.

Written Notice of Decision shall be forwarded to the applicant by registered mail. A sample Notice of Decision has been included as Appendix D.

#### **4.2 Adoption**

A resolution advising of the Board's decision and particulars of the decision should be adopted.

### **5.0 RECORD**

The Authority shall compile a record of the hearing.

In the event of an appeal, a copy of the record should be forwarded to the **Mining and Lands Tribunal**. The record must include the following:

- a) The application for the permit.
- b) The Notice of Hearing.
- c) Any orders made by the Hearing Board (e.g., for adjournments).
- d) All information received by the Hearing Board.
- e) The minutes of the meeting made at the hearing.
- f) The decision and reasons for decision of the Hearing Board.
- g) The Notice of Decision sent to the applicant

The significance is that the legislation is Provincial and cannot affect Federal matters. If a witness requires the protection of the *Canada Evidence Act* that protection must be obtained in the usual manner. The Ontario Statute requires the tribunal to draw this matter to the attention of the witness, as this tribunal has no knowledge of the affect of any evidence that a witness may give.

## Appendix C

# **CHAIRPERSON'S REMARKS WHEN DEALING WITH HEARINGS WITH RESPECT TO ONTARIO REGULATION 177/06**

## CHAIRPERSON'S REMARKS WHEN DEALING WITH HEARINGS WITH RESPECT TO ONTARIO REGULATION 177/06

We are now going to conduct a hearing under Section 28 of the *Conservation Authorities Act* in respect of an application by \_\_\_\_\_  
for permission to \_\_\_\_\_  
\_\_\_\_\_

The North Bay-Mattawa Conservation Authority has adopted regulations under Section 28 of the *Conservation Authorities Act* which requires the permission of the Authority for development within an area regulated by the Authority in order to ensure no adverse affect on the control of flooding, erosion, dynamic beaches or pollution or conservation of land, or to permit alteration to a shoreline or watercourse or interference with a wetland.

The staff has reviewed this proposed work **and prepared a staff report, a copy of which** has been given to the applicant **and the Board. The applicant was invited to file material in response to the staff report, a copy of which has also been provided to the Board.**

**Under Section 28 (12) of the *Conservation Authorities Act*, the person requesting permission has the right to a hearing before the Authority's Hearing Board.**

The *Conservation Authorities Act* (Section 28 [12]) provides that:

"Permission required under a regulation made under clause (1) (b) or (c) shall not be refused or granted subject to conditions unless the person requesting permission has been given the opportunity to require a hearing before the Authority".

In holding this hearing, the Authority's Hearing Board is to determine whether or not a permit is to be issued **with or without conditions**. In doing so, we can only consider the application in the form that is before us, the staff report, such evidence as may be given and the submissions to be made on behalf of the applicant. **Only Information disclosed prior to the hearing is to be presented at the hearing.**

The proceedings will be conducted according to the *Statutory Powers Procedure Act*. Under Section 5 of the *Canada Evidence Act*, a witness may refuse to answer any question on the ground that the answer may tend to criminate the person, or may tend to establish his/her liability to a civil proceeding at the instance of the Crown or of any person.

The procedure in general will be informal without the evidence before it being given under oath or affirmation.

The rules of evidence before this Hearing Board are informal.

If the applicant has any questions to ask of the Hearing Board, he/she is free to do so providing all questions are directed to the **Chairperson** of the Hearing Board.

The Hearing will proceed as follows:

1. Staff and/or counsel of the North Bay-Mattawa Conservation Authority will present an overview of the application and the reasons why the application was recommended for denial. The Applicant will then have the opportunity to ask questions of staff based on their presentation. Following the Applicant, the members of the Hearing Board may ask the staff questions.
2. Next will be the presentation by the Applicant followed by questions by NBMCA staff and/or counsel and then questions by members of the Hearing Board.
3. Lastly, the Hearing Board will deliberate and make a decision on the application. A resolution advising of the Hearing Board's decision and the particulars of the decision will then be adopted.

Enclosure

**TO:** The Chairman and Members  
of the Board of Directors,  
North Bay-Mattawa Conservation Authority (NBMCA)

**ORIGIN:** CAO, Secretary Treasurer

**DATE:** September 20, 2020

**SUBJECT:** Loan Agreement Amendments Between NBMCA and Ski Hill (LSHSC)  
and Updates.

**Background:**

The Conservation Authority has entered into Loan Agreements with the LSHSC for the repayment of debt incurred by the ski hill to the conservation authority in 2015 and for assistance for the purchase of a groomer in 2013. The payments are made on May 1st annually. The amounts are \$8,293 and \$10,000 respectively.

At the time of entering into the agreements it was decided the optimal date for payments would be at the beginning of LSHSC's fiscal year on May 1st. It is apparent that requiring the ski hill to make payments at this time creates a cash flow problem. For some time now and as part of the revised business plan discussions for 2021 serious thought has been given to pushing the payments back to a period when revenue flowing into the operations in the early winter.

No payments have been missed since entering into the agreements.

Of note is the return from LSHSC of the Capital Reserve funds of \$10,000.00 approved in September. LSHSC made arrangements with the supplier to provide a demonstration "pump Skid" unit for the season at no cost.

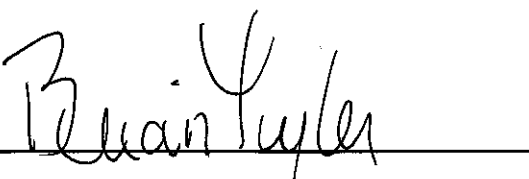

The LSHSC Board hired their new Manager Michael King on October 13<sup>th</sup>.

**Analysis:**

It is clear the 2021 business plan will include a change to the annual loan payment dates to December 31st. The change will not alter the flow of revenues to the CA and will remain within current and ongoing fiscal years for both parties. The change is supported by the NBMCA and LSHSC auditor, BDO Canada. Further discussion on the changes will occur at the meeting.

**Recommendation:**

Staff is recommending that the Board approve the changes to the loan agreements.

Attention: Brian Tayler

Dear Brian,

Laurentian Ski Hill Snowboarding Club (LSH) is currently revising the business plan and reviewing the operating agreement between us. We are looking at ways we can work more effectively. One of the things that we are going to be requesting in the new operating agreement is a change to the loan repayment schedule. Currently we repay each of the two loans at the beginning of May. We would like to amend the agreement to reflect the due date be at December 31<sup>st</sup> each year. This amendment would help with cash flow issues that we have at the start of the ski season every year. We are requesting that this be done for this current year as well, and therefore would require you to return the two payments we made to you on May 01<sup>st</sup> this year totalling \$19,796.82

This year's cash flow was further impacted due to the fact that fundraising events were not able to be held since March 13<sup>th</sup> and we've received \$0 in bingo revenue over the summer, Y.T.D. bingo revenues last year were over \$9,000

Our early bird sales are tracking in the same direction as last year at this point, which is encouraging and we believe that the year could see a huge uptick in sales due to the fact that normal travel plans are cancelled and people will need an outlet. Thank you for the continued support and I hope that this request can be accommodated.

If you have any questions or concerns, please feel free to contact me directly.

Sincerely,

John Strang  
President

**SUBJECT:** Laurentian Escarpment Conservation Area Trail Proposal and  
Update

### **Background**

The Laurentian Escarpment Conservation Area, (LECA) overlooking the City of North Bay, offers significant natural and heritage features attracting a variety of trail users hikers, dog walkers, photographers, naturalists, and families who enjoy a variety of four-season activities. It has a growing appeal to mountain bike users and has the potential to be developed as destination opportunity for eco-tourism regionally.

NBMCA engaged Alpine Bike Parks a trails specialist firm from British Columbia to inventory the existing trails, identify management and maintenance issues, and recommend a path forward.

It is important to mention that The LECA Trail Network Master Plan did not fully address an environment analysis of the trail density and its impact on the ecology of the escarpment, including trail density and the ecological sensitivities on the escarpment.

FRI Ecological Services was retained to conduct an environmental screening of the Alpine Bike Parks report with respect to the trails' impacts on existing natural heritage features from existing trail use, proposed trail improvements and proposed trail maintenance. This report was brought to the NBMCA board June 2016.

From information contained in these two reports, NBMCA developed the LECA Trails Proposal finalized in May 2018. This Proposal takes into consideration the existing trail usage, the desirable density, trail maintenance requirements, and environmental sensitivities.

This proposal recommends a trail network of approximately 18 km, density of 11.5 km/km<sup>2</sup>, and the removal of trails from the ecologically sensitive areas. It incorporates a plan for multi-use cross country trails, downhill bike trails and a community bike park.

This proposal will help create increased opportunity for outdoor recreation, enhancing physical and mental health as well as an appreciation of the escarpment's natural environment. It can increase attraction to the LECA as an eco-tourism site, a destination for recreation and competitive mountain biking events, bringing economic stimulus to the region.

**SUBJECT:**

Communications and Outreach Update

**Background:**

The Communications and Outreach (C&O) Program at NBMCA undertakes corporate communications and outreach initiatives that inform, educate, and engage multiple stakeholders through multiple channels. C&O also provides internal support to the CAO and program staff to assist them in their interactions with individuals, organizations, non-governmental and government agencies. C&O has the responsibility of facilitating the delivery of accurate, timely information to stakeholders and the media during times of crisis. On March 17, 2020 Ontario Premier Rob Ford declared a state of emergency due to the COVID-19 Pandemic. As a member of NBMCA's Emergency Response Team/Management Team, C&O is implementing communications initiatives which support NBMCA's response plans and the delivery of essential services.

**Analysis:****COVID-19 Communication**

Messaging surrounding NBMCA's delivery of essential services has been delivered through nbmca.ca as well as social media. The "Service Disruptions" webpage carries the updated summary of COVID-19 impacted services with a link directly from the home page. Messaging has continued to support North Bay Parry Sound District Health Unit messaging regarding the health benefits of going for a walk, while maintaining 2 metre physical distancing. Messaging has been, and will continue to be adjusted and the website updated, as and when new direction is provided by the province and the health unit.

**2020 Conservation Areas Workshop Webinar Series – Video Presentation**

NBMCA Conservation Areas and Trails will be featured as part of Conservation Ontario's webinar series for the Conservation Areas Workshop. This workshop for the lands staff at Ontario's 36 Conservation Authorities is normally held in person, however due to COVID-19, the format has changed to an on-line webinar series. Communications & Outreach is producing a video to provide a Virtual Site Tour of key facilities to share with lands staff throughout Ontario. Troy Storms, Manager of Lands and Stewardship will be making the presentation.

**Source Water Protection – Online Consultations**

Communications staff from Ontario's Source Water Protection Areas meet quarterly to discuss and collaborate on communication opportunities related to the source water protection program. A working committee has been struck to explore online consultation formats and opportunities given the source protection areas are currently in the process of reviewing and updating their source protection plans, a process which requires public consultation. Sue Buckle, Manager of Communications and Outreach is a member of this working committee.

### **Media Events**

NBMCA hosted two media events in the past month, adhering to guidelines regarding face coverings and physical distancing. The events were preceded and followed-up with social media postings as well.

**Kate Pace Way / La Vase River Bridge:** On Oct 22, media attended the official opening of the Kate Pace Way LaVase River bridge. The \$33,600 redecking of the bridge was funded by NBMCA with a grant from The Great Trail and contributions from the South Shore Restoule Snowmobile Club and the Near North Trails Association.

**Grandparents and Grandchildren Planting Trees:** 900 seedlings were planted by 20 grandparents and their grandchildren on October 6 at the Nipissing Starter Nursery at Second Avenue along the Chippewa Creek EcoPath. Funded by a grant from the TD Friends of the Environment Foundation. Project partners were Trees for Nipissing and Women<sup>10</sup> Living Fit.

**Media Releases** were issued and social media posted August 1 – October 31, 2020 for the following:

- New Deck for Kate Pace Way Bridge over La Vase River
- Chippewa Creek Remediation / New Pedestrian Bridge – Contract Awarded
- Shoreline Restoration at Eva Wardlaw Conservation Area
- Don't Feed Wildlife in Conservation Areas
- New Municipal Representative Needed on Source Protection Committee
